## Dealer License Assistance Division

- **No Membership Fees !!**
- **License Specialists** Professional, Reliable & Productive - always ready to respond to your needs
  - **Form 601** - Universal Licensing Radio Service Authorization Application  
New licenses, Mods, Admin Updates, Amendments, Consolidations, etc.
  - **Form 603** - Assignment of Authorization & transfer of Control
  - **Form 606** - Taxpayer identification Number Registration Form
  - **Form 854** - Application for Antenna Registration
  - **Form 7460-1** - FAA Registration Study
  - **HAAT / AAT** - Now required for all new and Modified License submissions
- **Fixed Preparation Service Fees** - New License - \$ 110.00  
Modification / Renewal - \$ 110.00  
Plus FCC / Frequency Coordination Fees
- **Data Base Management** - WRR will maintain a database of your clients to guarantee all licenses stay current and valid. Since the FCC no longer offers automated renewal notices, this eliminates the possibility of losing customers because of licensing deadlines and complications.
- **Located Next To the FCC** - WRR has management and technical staff located next to the FCC Land Mobile Branch in Gettysburg PA. This means that our clients' filing concerns can be discussed and handled in person with a member of the FCC staff faster then it takes most other firms to be made aware of the problem.

Since 1950, **Washington Radio Reports (WRR)** has been providing the Two-Way Radio Communications Industry with the type of product and service necessary to succeed in this most competitive marketplace. Recently, the Federal Communications Commission changed the radio licensing process with the introduction of the Universal Licensing System (ULS). **As of 12/3/01 FCC Docket # 01-2452 requires the new FCC registration # on all licensing applications.** Although this change was designed to overhaul and simplify the Land Mobile database and license application process, the result has been quite different.

Our Dealer / Manufacturer clients realize that license application paperwork has never represented a profitable part of operations, but rather a necessary bottleneck of doing business. On the other hand, Washington Radio Reports specializes in the two-way radio license application business and would like you to consider the possibilities. Today more than ever, the Dealer License Assistance Division can save you time and money.

Washington Radio Reports has improved dealer productivity nationwide by allowing radio sales to drive business. Let us do the same for you. Our professional staff is available to assist your licensing needs daily between the hours of 8AM and 3PM Eastern Time. A **License Data Sheet** has been provided on the reverse of this page for your convenience. We look forward to working for you!

Sincerely,

Washington Radio Reports

**Washington Radio Reports (WRR)- Dealer Data Sheet for 2-Way Radio Licenses**
